

# Curious about Cybersecurity at Anderson University?

Reason #2: [Anderson University Center for Security Studies and Cyber Defense \(AU CSSCD\)](#)

CENTER FOR  
**SECURITY STUDIES  
& CYBER DEFENSE**

Hello!

Here is reason #2 why you should attend [Anderson University](#) and study in our [Cybersecurity Program](#).

At AU, we see experiential, hands-on learning as an irreplaceable part of the education process. What that means is that students begin preparing for their professional career by obtaining internships while they are still in school. We have a deep network of alumni who want to give back through professional development and internships. But we also have our own apprenticeship center on campus, the [Anderson University Center for Security Studies and Cyber Defense \(AU CSSCD\)](#).

- The Center **provides lower cost information security services** to small businesses, other non-profits, and local units of government.
- The AU CSSCD provides our clients with services provided by **paid student apprentices** working under the close supervision of senior security staff. These student interns are able to work during the summer and academic year at **\$15.00 per hour**.
- As part of the cybersecurity program, we train students how to prepare and take industry certificate exams, which are a regular part of a cybersecurity career. Students have the opportunity to prepare for an exam under faculty supervision in a **certificate preparation course**.
- And also, for students who are hired as an Anderson University Center for Security Studies and Cyber Defense apprentice, there is the opportunity for the AU CSSCD to **reimburse the cost** of a relevant industry certification as a part of the apprenticeship program.

If this sounds like something that you would like to be a part of...
